Senator
Dunlap.

Senator Dunlap

**The Most Productive and Dependable
Berry Grown**

This strawberry is the best known berry in the United States. Its large yields, its sure crops, its dark red, highly flavored berries, have won for it a name everywhere strawberries are grown. It is planted by gardeners and fruit growers alike. We always sell more Dunlap plants than any other two varieties, and you will never hear growers "kicking" the Senator Dunlap.

We recommend our Senator Dunlap plants especially for large yields and abundant plant makers, the kind that produces the greatest possible growths and yields for you. Every plant is guaranteed to be true to name, strong, healthy, well rooted, and to reach you in good growing condition. Plant Dunlap in your gardens or fields for large yields.

Price, per 25, 25c; 100, 80c; 1,000, \$5.00. (300 or more plants at 1,000 rate.)

Gibson.

The Famous Gibson

The Strawberry Without a Fault

No bigger, better berry grown. It is the largest, wonderfully productive, and one of the best berries on the market today. There are more Gibsons planted by the growers in this big berry section than any other variety, so you can judge for yourself that it must be a good one. They like its large, firm, well colored berries, and there are just bushels of them on the vines. You can't find a better berry for canning, preserving, or shipping to market, than the famous Gibson. You can make more money, and have all the berries you care to eat from a few famous Gibson plants set in your garden than you can possibly realize.

We have the pure Gibson plants, grown especially for large growths and big yields.

Price, per 25, 25 cents; 100, 85 cents; 1,000, \$5.50. (300 or more at 1,000 rates.)

With every shipment of plants described in the folder we send you FREE a copy of "KEITH'S WAYS TO SUCCESSFUL BERRY CULTURE."

The Early King Red Raspberry

Most Profitable Red Raspberry Grown

It's the earliest of all red raspberries, and bears a week to ten days later. This long bearing season makes it a very profitable berry to grow, and a fine one for your gardens.

There are more Early King Red Raspberries planted in the fruit section than any other variety because growers make more money from it.

Secure a few plants and get started this year. We certainly know that the Early King will please you. Just the variety for your garden or field. It's the coming red raspberry.

We guarantee our plants to be pure Early King, and will ship you strong, heavily rooted plants. Order today so as to get some of our pure Early King plants. Price, per 25, 50 cents; 100, \$1.50; 1,000, \$12.00. (300 or more plants at 1,000 rates.)
